

## USER INSTRUCTIONS

**PRODUCT CODE : 1442 VINYL RED**

**Safety category: II**

**GLOVE DESCRIPTION:** fully coated PVC gloves, with long cuff. Tough flexible smooth PVC coating will withstand abrasion in most normal handling conditions. Models with 350mm length, based on degree of protection required for forearm. Flared gauntlet for ease of removal. Not for use with liquids. Available sizes: 7(S)-11(XXL).

**USE:** general purpose handling glove. Gloves are designed to protect against: general material handling, assembly and maintenance glove providing protection against slip, dirt and moderate mechanical workload. Suitability of the product is to be ascertained per each particular work application as part of the end users risk assessment program.

**WARNING:** do not use near moving machinery if there is a risk of entanglement.  
Gloves with two or more layers the overall classification does not necessarily reflect the performance of outmost layer.  
Gloves meeting the requirement for resistance to puncture may not be suitable for protection against sharply pointed objects such as hypodermic needles.  
This Pictogram indicates that the product protects against Mechanical risks and complies under EN 388:2016+A1:2018. The numbers indicate performance levels. Dexterity Performance level is 5 in according with EN ISO 21420:2020,

Mechanical test data	Result	Mechanical Property	Level 1	Level2	Level 3	Level4	Level 5
Abrasion resistance	Level 4	Abrasion (Cycles)	100	500	2000	8000	-
Cut resistance	Level 1	Cut (Index)	1.2	2.5	5.0	10.0	20.0
Tear resistance	Level 1	Tear (Newton)	10	25	50	75	-
Puncture resistance	Level 1	Puncture (Newton)	20	60	100	150	-
TDM cut resistance	Level X	Cutting force (Newton)	A>2 ;B>5 ;C>10 ; D>15 ; E>22 ; F>30				

EN 388:2016+A1:2018

**X means test not tested**  
**0 – Level 1 not achieved.**

The results are taken from the palm area of the gloves.

EU Type examination carried out by SATRA Technology Europe Ltd, Bracetown Business Park, Clonee, Dublin, D15 YN2P, Ireland, NB #. 2777 in accordance with PPE Regulation (EU) 2016/425.

Sizes	7/S	8/M	9/L	10/XL	11/XXL
Hand size according to EN ISO 21420:2020	7	8	9	10	11

*Glove size measurements are made when the glove is laid flat and relaxed. The stretch property of these products allows the gloves to accommodate the hand size quoted above.*

**MARKING:** name of manufacturer, Style, Size, CE Mark, Mechanical pictograms with performance levels.

**LIMITATION OF USE / RISK:** gloves are intended to protect hands in working environment in accordance with EN 388:2016+A1:2018, EN ISO 21420:2020. The user shall evaluate and determine risks based on

intended application and use gloves only in intended application. Risk should be evaluated keeping in mind the protection levels and the harmonized standards on which gloves are tested.

**GLOVE DONNING:** ensure the selection of appropriate glove size. Check for any physical damages, glove condition and contamination prior to each use of glove.

**GLOVE DOFFING:** remove the glove as soon as it is worn off or damaged. When contaminant is not removable or presents a potential hazard it is advisable to ease left and right gloves off alternately using the gloved hand so that the gloves are removed without the contaminant contacting bare hands.

**HAND HYGIENE:** when an indication for hand hygiene precedes a contact that also requires glove usage, hand rubbing or hand washing should be performed before donning gloves and after removing gloves.

**OBSOLESCENCE:** when stored as recommended will not suffer change in mechanical properties for up to 5 years from the date of manufacture. Service life cannot be specified and depends on the application and responsibility to user to ascertain suitability of the glove for its intended use.

**STORAGE:** gloves should be ideally stored at 5-25°C in dry, well ventilated area in original package. Prevent direct sunlight.

**CLEANING / MAINTENANCE:** both new and used gloves should be thoroughly inspected before being worn to ensure no damage is present. Gloves should not be left in contaminated condition. Cleaning and disinfection is not intended for these gloves.

**DISPOSAL:** used gloves may be contaminated with infectious or other hazardous materials. Please dispose according to local authority regulations. Landfill or incinerate under controlled conditions.

**GENERAL:** the gloves and the raw materials used in their manufacture are not shown to be harmful to the wearer. The information contained herein is intended to assist the wearer in the selection of personal protective equipment. The results of the physical tests should help in glove selection; however it is the responsibility of the end user and not the manufacturer to determine glove suitability for intended purpose. This information does not reflect the actual duration of protection in the workplace due to other factors influencing the performance, such as temperature, abrasion, degradation etc.

**Caution:** the results of the tests should help in glove selection, however it must be understood that actual conditions of use cannot be simulated and it is the responsibility of the user not the manufacturer to determine glove suitability to the intended use. Further information may be obtained from manufacturer.
