

INSTRUCTIONS FOR USE

Product code: C012 – 1010 TRICOT GROS

Safety category: I

Read and follow these instructions carefully!

Users need to assess the risks at work and check that the product is suitable for them. The manufacturer assumes no responsibility for the use of the product against risks other than those mentioned and / or without following these instructions.

Areas of use:

Protective equipment of simple design for the protection of the body against minor risks - mechanical actions with superficial effects, atmospheric agents that are neither exceptional nor extreme - in normal environments, without potentially explosive atmosphere, which do not require other specific protective equipment, e.g.: construction, wood industry, transports, mechanical workshops, locksmiths.

Performances:

The protective gloves are designed to comply with the provisions of Regulation (EU) 2016/425 of the European Parliament and of the Council and the essential health and safety requirements corresponding to the intended field of use for category I PPE, in accordance with the specifications of the standard: SR EN 420+A1:2010 (EN 420:2003+A1:2009) - Protective gloves. General requirements

Limits of use

The product is intended to be used in a work environment with minimal risks. The suitability of gloves for each activity must be established as part of the final client's risk assessment program. Use gloves only for the intended purpose and wear the right size. Check gloves before use and do not use damaged gloves. None of the materials used in the production of these gloves are known to be harmful to the user

Cleaning and maintenance:

Both new and used gloves will be carefully inspected before use. Gloves should not be left contaminated. If reuse is intended, they will be washed with warm water and usual detergent, afterwards they will dry naturally, under the action of air currents. Do not clean with solvents or disinfectants.

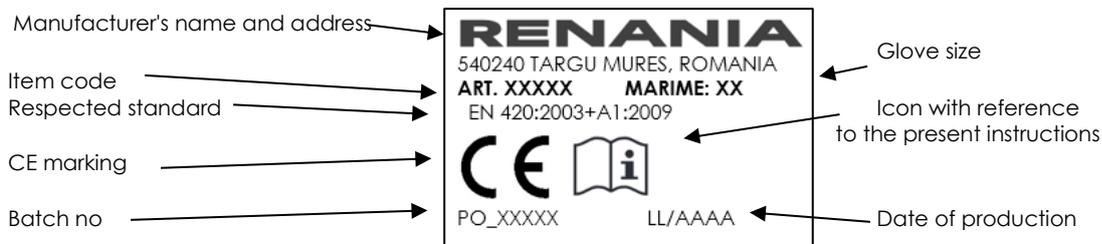

Storage instructions:

Storage is done in the original packaging, temperatures between + 10 ° C and + 25 ° C, away from direct heat sources. Avoid direct sunlight.

Shelf-life:

If stored as recommended, the gloves will not change their properties for up to 5 years from the date of manufacture. The duration of use cannot be specified and depends on the field of use and working conditions and it is the responsibility of the user to ensure the suitability of the glove for the intended purpose.

Marking: on the glove or on the label sewn inside the glove:
